In response to the dramatic trend towards [fatherlessness in America](#), [Dr. Ken Canfield](#) founded the National Center as a nonprofit, scientific and education organization. Today, the Center provides practical, research-based training and resources that equip men in virtually every fathering situation to be the involved fathers their children need.

The Center reaches more than one million dads annually through seminars, small-group training, the [WATCH D.O.G.S. \(Dads Of Great Students\)](#) program, our daily [radio program](#), and award-winning website and [weekly e-mail](#).
